

Welcome to Studiebarometeret!

Choose language below (English, Norwegian Nynorsk, Norwegian Bokmål, Sami).

Thank you for voicing your opinion about your study programme. Your answers can help improve the quality of your programme! Your university has informed us that you are a student at:

To participate, start the questionnaire by clicking "next" at the bottom of the page.

The purpose of the survey

Our goal is to capture students' view on the quality of their education, and to make this information available to universities/university colleges, students and others. The results give educational institutions the opportunity to make improvements. Data from the survey are also used for research purposes. Results are published annually on www.studiebarometeret.no/eng, as average scores for individual study programmes. The survey is conducted by NOKUT, and commissioned by the Ministry of Education and Research.

Why are you being asked to participate?

Studiebarometeret is a survey among all students in the 2nd and 5th year of study, almost 74.000 students. Your institution has allowed us to retrieve directly personally identifiable information (email address and phone number) and indirectly identifiable information (study programme, gender, age, admission basis, exam results and citizenship) about you.

What does participation entail for you?

You participate in the survey by filling out a web questionnaire, which takes about 10-15 minutes to complete. All respondents have the chance to win either one of five gift cards with a value of 5000 NOK, or one of 25 gift cards with a value of 1000 NOK.

Participation is voluntary

Participation in the survey is voluntary. If you choose to participate, you can withdraw your consent at any time without providing a reason.

Your personal privacy – how we store and use your personal data

We will process your personal data confidentially and in accordance with data protection legislation. We will not publish data that makes it possible to identify respondents.

Rambøll AS assists NOKUT in the implementation and distribution of the survey. They have access to e-mail addresses and telephone numbers until the survey closes. NOKUT cooperates with the colleges and universities. The institutions get access to your response data, but not personally identifiable information, such as your email address, gender or age.

The institutions provide NOKUT with background data on all students, based on a legal commitment. This also applies to those who do not participate. The purpose is to investigate whether the answers we receive are representative of the student population, which is very important in order to interpret the results. It is possible to opt out of this by sending an e-mail to res-studiebarometeret@nokut.no.

What will happen to your personal data at the end of the project?

Records on directly personally identifiable information (phone number and e-mail address) will be deleted at project termination, no later than October 1, 2022. Records on indirect person identifiable information such as gender, age and nationality will be kept by NOKUT until 2026 and by the Norwegian Centre for Research Data until 2031, and will be available for analysis and research purposes, provided that you consent to this at the end of the questionnaire.

Your rights

As long as you can be identified in the collected data, you have the right to:

- access the personal data about you that is being processed
- request that your personal data be deleted
- request that incorrect personal data about you is corrected/rectified
- receive a copy of your personal data (data portability), and
- send a complaint to the Data Protection Officer or The Norwegian Data Protection Authority regarding the processing of your personal data

The legal basis for NOKUT's processing of your personal information

Your consent forms the legal basis for NOKUT to process the results from the survey, pair them with background information from the universities' and university colleges' internal systems, and for the subsequent storage of indirectly personally identifiable information (PII) after project completion. NSD - The Norwegian Centre for Research Data has determined, at NOKUT's request, that the data processing is in accordance with privacy protection legislation.

Where can you find out more?

If you have questions about the survey, please contact:

- The project group at studiebarometeret@nokut.no
- For questions about privacy: NSD – Norwegian Centre for Research Data at personverntjenester@nsd.no, telephone +47 55 58 21 17.

Yours sincerely,

NOKUT (Norwegian Agency for Quality Assurance in Education)
